

CORONAVIRUS DISEASE 2019 (COVID-19) NOTIFICATION - MARCH 11, 2020

MMC Community,

While there are no confirmed cases of COVID-19 in the Pulaski area, our College wants to continue to be proactive. While we hope our campus community will not be impacted by this epidemic, the College will continue to take steps to ensure the safety and well-being of our campus community. MMC Employees at high risk should contact their supervisor about accommodations if needed. All employees should use common sense practices when making decisions about social distancing by deciding which measures to take to put distance between yourself and other people to further reduce your risk of being exposed to this new virus.

We are preparing for all scenarios that could impact the completion of the semester. The campus community will continue to receive notifications and we will have a COVID-19 Alert Page on our website this afternoon.

If you think you are sick:

- Call **BEFORE** visiting your primary health care provider or MMC Clinic, if in the past 14 days you:
 - Have traveled to an affected area and have a fever and signs or symptoms of a lower respiratory illness (cough, shortness of breath), or
 - Were in close contact with a confirmed case of COVID-19 and have a fever or signs or symptoms of a lower respiratory illness (cough, shortness of breath).
